The attendance on the convention was unusually large, and the enthusiasm which characterized its proceedings unprecedenced. It was generally supposed that a majority of the delegates preferred Gov. Andrew Johnson as their first choice for Precident; but it will be seen from the resolutions below, that the convention deemed it most prudent to withhold any expression ou the subject. The delegates appointed were left untranmelled by instructions, but were selected to take such course as would most certainly promote the interests of the party. The convention passed, with entire unanimity and with great enthusiasm, a resolution unanimity and with great enthusiasm, a resolution approving the President's message, and sustaining the course of the Democrats in the House of Representatives in regard to the election of a Speaker. Necessaries of Life. Flour, Whisky, and Tobacco have long been regarded henecessaries of life—but it is a mistake. We can't buy Flour—that is, Daguerreety pists can 't—for it is too dear; the temperance men wont let us drink Whisky, and the Tobacco crop is a failure. What we can't get it is plain we must do without, and what we can do without is not a necessary. The provert, then, is a false-hood. But one of HARRIS'S Dagarneotypes—bright, sparkling, rich, bold, and clear—which we can get and cannot do without—that is a necessary of life. ne22

ESSRS. J. B. FORD & CO., OF ESSRS. J. B. FORD & CO., OF the city of New Albany, in the State of Indiana, claiming to be the owners of Sanford's patent right to manufacture what is known as Sanford's Straw-Cutter, have sold the right to manufacture the same to various persons for certain prescribed territories, and they have warned the public against purchasing the Straw-Cutter manufactured by us. We have been for a long time satisfied that the so called sanford pstent is a fraud, and this it is void, being a palpable pracy and an infringement of the patent right of John Boynton, which bears date 20th day of September, 1838, and has expired. We have been satisfied that the machine de comfincted Sanford's Perfect Straw-Cutter is constructed, not according to the specifications contained in Boynton's, and all this has been recently so decided in Boynton's, and all this has been recently so decided in the U.S. Circuit Court for the middle district of Tennessee.

I have seen many of Dr. Price's patients afflicted with the Serofula, both before and after they were healed. It is certain that uneers of the most invelerate character seemed to yield readily to his Chronic Specific. I have seen many certificates in possession of Dr. Price, bearing testimony to his entire success.
